

## 3300 Textile and leather impregnation

### Product description

Textile and leather impregnation is an environmentally friendly impregnation for use on synthetic and semi-synthetic textiles. Ideal water and oil repellent properties for convertible tops, awnings or work / leisure wear.

### Advantages

- Excellent oil, water and dirt repellency
- Suitable for workwear and outdoor clothing
- Environmentally friendly formulation
- PFOA-, PFOS- and APEO-free

### Application fields

Convertible roofs, home textiles, work / leisure wear

### Application

1. Read instructions before use.
2. The fabric must be clean, dry and free of grease.
3. Spray at a distance of about 15-20 cm.
4. Allow to dry completely after treatment.

Note: Remove excess material from adjacent, non-textile surfaces.

### Technical Data

Property	Value
Chemical Base	Solvent based fluoroacrylic
IPA Test on PES (INDA IST 80.8)	7
Spray Test on PES (AATCC 22-1996)	100
Oil repellency on PES (AATCC 118-1997)	4
Application Temperature	5°C - 25°C
Storage stability	24 months
Recommended storage	5°C - 25°C

Find comprehensive advice on health, safety, and environmental protection in the corresponding safety data sheets.

### Available Containers

Container	Volume
Spray can	250 ml
Spray can	400 ml
