### Oil Stain Remover Liquid

#### Product description

Fast and efficient removal for all kinds of oil spots. The solvent penetrates deeply into porous surfaces. The oil binding agent is ideally suited to bind oils out of cavities. The special product is particularly fast and easy to use. Apply, let soak in, brush off - done!

#### Advantages

- Fast application: completed in 15 minutes!
- Does not attack stone surfaces since free from acids and alkalis: Also suitable for polished marble
- Biodegradable
- Surfactant free and aromatic free

#### Application fields

Removal of stubborn oil, grease and wax stains on natural stone and concrete, screed, ceramics, clinker, terracotta, etc. Also ideal for removing discolorations in edge zones.

#### Application

1. The substrate must be dry.
2. Shake vigorously before use
3. Pour onto oil stains
4. Leave to act until a white, dry crust is formed (approx. 10-15 minutes).
5. Take up by sweeping or by vacuum cleaner and dispose of in accordance with regulations.

Note: Can cause discoloration or may dissolve on varnish and plastic surfaces. Check whether the intended use is suitable.

#### Technical Data

Property	Value
Colour	milky
Chemical base	Ester, oil binder
Geruch	Ester
pH-value (25°C)	Not applicable
Density	0,9 g / cm <sup>3</sup>
Application Temperature	5°C - 25°C
Storage stability	24 months
Recommended storage	> 5°C

Find comprehensive advice on health, safety, and environmental protection in the corresponding safety data sheets.

#### Available Containers

Container	Volume
Tin can	1 L
